Gyne Oncology Conclave 2025

Practical Oncology for Practicing Gynecologists – From Pap to PET

President & Secretary's Message

Dear Colleagues & Friends,

It gives us immense pride to welcome you to the Gyne Oncology Conclave 2025, a landmark event in collaboration with the Department of Gynecological Oncology, Nanavati Max Superspeciality Hospital.

In a time when gynecological malignancies are being diagnosed with greater frequency but also treated with unprecedented precision, it is our responsibility to equip ourselves with knowledge, skills, and compassion that can truly change lives.

This conclave is not just a conference—it is a practical masterclass, designed for practicing gynecologists, residents, and postgraduate students, bringing you the latest evidence-based strategies, minimally invasive surgical innovations, and holistic cancer care principles.

From the latest HPV screening tools to cutting-edge robotic and laparoscopic surgeries, from molecular profiling to immunotherapy breakthroughs, this program ensures you go back enriched with practical tips you can use from the very next day in your clinic or operating room.

Let us together reaffirm our commitment to Precision in diagnosis, Protection of our patients, and Progress of women's health—the essence of my presidential theme.

I invite you to immerse yourself in the scientific feast we have prepared, to engage in discussions, and to be part of an unforgettable academic experience.

See you on September 7th for a day that promises to redefine your oncology practice!

Dr. Rajendra Sankpal

President, Mumbai Obstetric & Gynecological Society (MOGS)

Dr Kedar Ganla, Secretary, Mumbai Obstetric & Gynecological Society (MOGS)

Gyne Oncology Conclave 2025

Scientific Program
